Patent Pending at USPTO · Filed 2026 · CIVITERA GovTech Inc.

TECHNOLOGY NAME

CIVITERA-SKILLCORE™

Human Skill Ownership, Licensing & AI Execution Governance Platform

EXECUTIVE OVERVIEW

CIVITERA-SKILLCORE™ is a proprietary technology asset developed by CIVITERA GovTech Inc. to address important challenges and opportunities within its target markets. The technology is designed to create measurable value through improved performance, enhanced efficiency, greater scalability, stronger resilience, and long-term operational benefits across commercial, industrial, governmental, and strategic environments.

SKILLCORE™ addresses the foundational unresolved question of the AI economy: who owns the human skills, knowledge, and expertise that train artificial intelligence systems, and how are those contributions attributed, licensed, and compensated. As AI scales across workforce automation, knowledge transfer, and autonomous operations, the absence of a skill-rights infrastructure becomes a structural barrier. SKILLCORE™ creates the foundation for the Human Skill Economy, where skills become identifiable, licensable, and economically meaningful digital assets.

CIVITERA believes CIVITERA-SKILLCORE™ represents a strategically important innovation platform with significant commercial, industrial, and licensing potential.
